EUR 1 Movement Certificate

What is an EUR 1 Movement Certificate?

An EUR1 Movement Certificate (EUR1) is a document used to enable the custom clearance of commercial consignments between specific countries.

Why do I need an EUR 1?

An EUR1 allows importers to pay a preferential (usually zero) rate of import duty when goods are sent between countries who have bilateral trade agreements in place.

Which countries are included?

A full list of countries who accept the EUR1 can be found online.

Does my shipment qualify?

To qualify the goods must originate in the UK or the EU and be supported by a correctly completed and authorised EUR1.

An EUR1 cannot be used for the movement of personal effects.

There is also a low value limit of €6000 (or equivalent currency). If the consignment value is less than this you can still raise an EUR1, however, a disclaimer on your export invoice will enable the same benefits without any additional cost.

How does the EUR1 work?

An EUR1 can only be raised in the country of exportation and in the UK it is authorised by the Chamber of Commerce.

Once approved, the top green copy of the EUR1 will travel with the consignment and is presented to customs by the importer. The white copy remains with the Chamber of Commerce.

You should note that EUR1's are issued on a consignment by consignment basis.

Is there a charge payable?

Yes. You can find an up to date price list online.

How do I apply for an EUR1?

You will need to obtain a blank original EUR1 form from the Chamber of Commerce and complete all necessary fields. This can be submitted online or via the postal system.

What documents do I need to attach to the application?

You will be required to submit commercial documentary proof of the origin. If the goods originated outside the UK you would need to obtain a manufacturer's commercial invoice or a supplier's declaration showing the origin.
